- Pairing Mode- Blue and Red LED starts Flashing.
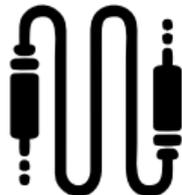

Reconnect the Speaker:
- If the connection is lost, TAGG LOOP will try to reconnect automatically.
- If it does not reconnect, kindly press the Power button for 3 secs and reconnect manually through your mobile Bluetooth.

Common Problems and Solution

- **Mobile Can't Find the Speaker:**
- Kindly restart your phone and the speaker.

- **There's always noise and the Bluetooth keeps disconnecting:**
- The Speaker needs to be charged.
- Make sure you are not beyond the signal distance.

- **Bluetooth is connected but you are unable to listen to music:**
- Check your setting to adjust the sound to speaker.
- Some mobiles required you to select the device twice.
- Some mobile devices do not have complete stereo Bluetooth kindly connect the speaker with another device to check if it is functioning properly.

- **Bluetooth Password:**
- "0000"

- **Maximum Distance:**
- 20 ft.

- **Red LED is not ON while charging:**
- This could be due to lack of use of Speaker. It needs to be charged for 30 min before the Red LED occurs.

- **Restore the Factory Setting:**
- To restore factory settings, hold the Power Button for about three seconds when charging untill the red and blue LED flashes three times.
